

Joint Operations Command: Tactical Grid Deployment

Document Classification: RESTRICTED DEFENSE DEMO | Type: Defense Operational Plan

Hackathon: Smart India Hackathon 2026 (SIH 2026) | Problem ID: SIH26237

Team: Team Laccha Paratha (ID: 138638) | Platform: TraceCrypt Offline Engine

RESTRICTED OPERATIONAL DIRECTIVE — AIR-GAPPED COMMUNICATIONS INFRASTRUCTURE.

Theater of Operations: Northern Command Strategic Sector 4.

1. Communication Invariant: All tactical battlefield tactical terminals must operate with physical Ethernet disconnects and disabled RF transmitters. Data exchange occurs exclusively via certified write-once physical media.
2. Cryptographic Assurance: Content encryption must enforce AES-256-GCM authenticated encryption with ephemeral nonces. Key distribution across mobile units requires quantum-resistant encapsulation.
3. Forensic Non-Repudiation: Any classified operational briefing leaked outside authorized military command channels must be uniquely traceable to the originating recipient terminal via immutable ledger audit proofs.
